**Your story**

Concern: Apparently there will be wind-farms around my property and surrounding areas. Helicopter pilots were a big help for us during the bush fire, helping us and our communities fight the fires.

Will the wind-farms affect access to helicopter pilots if there are future disasters in the area especially in rugged country areas with poor visibility.

## Terms of Reference (optional)

---

The Inquiry welcomes submissions that address the particular matters identified in its [Terms of Reference](#).
