Your story	<p>There have been decades of countless reports, commissions usually after major events. Yet nothing is done. Insurance premiums will rise, The action and inactions of The Parks and Wildlife and green groups causing the effects on insurance ,businesses and loss of life and property and 500 million animals. It is not about money.</p> <p>You don't need to throw money at the bush-fire prevention problem 1)FREE, allow more 4 wheel drives into bush-land to break up the vegetation. 2)FREE, allow farm animals where feasible to enter and eat bush-land. 3) FREE, put the Parks and Wildlife underneath the the RFS so the RFS has more power for back-burning. 4)FREE, allow long thin strip farms in bush-land to create buffer zones for fires when they take off, in order to slow the progress of fires. 5)FREE, it should not be a criminal offence to go in and take dead fallen branches from parks for firewood. But it is a shame the 800 million plus Sydney football stadium and 3 billion light rail when trackless trams are now available</p>

could have been spent on fire planes by the State Government as well as these "free measures".

1.1 Causes and contributing factors

There have been decades of countless reports, commissions usually after major events. Yet nothing is done. Insurance premiums will rise, The action and inactions of The Parks and Wildlife and green groups causing the effects on insurance ,businesses and loss of life and property and 500 million animals. It is not about money.

You don't need to throw money at the bush-fire prevention problem 1)FREE, allow more 4 wheel drives into bush-land to break up the vegetation. 2)FREE, allow farm animals where feasible to enter and eat bush-land. 3) FREE, put the Parks and Wildlife underneath the the RFS so the RFS has more power for back-burning. 4)FREE, allow long thin strip farms in bush-land to create buffer zones for fires when they take off, in order to slow the progress of fires. 5)FREE, it should not be a criminal offence to go in and take dead fallen branches from parks for firewood. But it is a shame the 800 million plus Sydney football stadium and 3 billion light rail when trackless trams are now available could have been spent on fire planes by the State Government as well as these "free measures".

1.2 Preparation and planning

1.3 Response to bushfires

1.4 Any other matters
