Terms of Reference (optional)

The Inquiry welcomes submissions that address the particular matters identified in its [Terms of Reference](#).

1.1 Causes and contributing factors

Too much 'fuel' on the ground caused by drought and lack of hazard reduction.

1.2 Preparation and planning

Frequent hazard reduction burns are needed.

Paperwork requirements must be minimised and bureaucratic delays must be eliminated to enable the trained local RFS to carry out the hazard reduction work they deem necessary to protect the village

Wingecarribee Shire Council (WSC) needs to assist with removal of larger fire-hazards, such as pine trees, from residential areas.

Roads must be kept clear of fire hazard.

Penrose RFS and local residents must be able to clear and maintain buffer zones and to do hazard reduction.

1.3 Response to bushfires

No words can describe the respect and praise I have for both the RFS and locals who all help to keep us safe during the bush fires.
