1.1 Causes and contributing factors

My input into the fires is in three points . 1 Historically there has been always Drought and Fires. 2 Over the years there has been a build up of fuel.3 There are now a lot more Homes built in fire areas because obviously it's a nice place to live .

**1.2 Preparation and planning**

With the right conditions and with all the stars lined up this type of fire will probably happen again in the next 50 to 100 years, it's just the nature of the beast.

**1.3 Response to bushfires**

Accept Mother Nature is bigger than all of us.

**1.4 Any other matters**

Depending on your personal property position have a plan and a reasonable insurance policy.
