**Consent to make submission public**

I give my consent for this submission to be made public

## Share your experience or tell your story

---

**Your story**

My brief submission is "To supply every regional family impacted by loss of house to fire a supply (If regd) of a "standard steel container" to use as sleeping/storage need while rebuilding.

Any ventilation holes to be designated where to cut etc so that the opening can be riveted over (not welded-by low productive welders) with minimal damage. I submitted several years ago an Emergency Bush fire Housing which went unheeded like this one???
