Good morning.

I am wanting to express my thoughts on Flood Relief payment.

The option was put out to the public affected by floods in your area to receive gov support payment if you couldn't go to work.

This was the case for my husband and myself. So a week we were affected by surrounding flood water and unable to go to work.

I applied for a one off \$1000 payment as suggested in ads seen.
It was denied.

Emails received suggested to try the 13 week payment. And I thought well I'm not out of work that long, don't need 13 weeks. 1 week to cover money lost as we both work for ourselves.

Found out other people did follow the link and are receiving 13 week payment
When they also were only off work for a week.

Very confused by this. Thank you
