Your story

We bought our dream family home on tweed valley way approximately 12 months ago. Like many others this flood has totally tipped our life upside down. Our home is inhabitable and we have had to relocate our family of 6 to short term accommodation. Which is very expensive. We do love our life we had over the 12 months before the floods and can only dream of

renovating our home so it's flood proof or at least flood resistant..

Terms of Reference (optional)

The Inquiry welcomes submissions that address the particular matters identified in its [Terms of Reference](#)

1.1 Causes and contributing factors

We have been around the tweed river all our lives and strongly believe the floods are getting worse Because the river no longer gets dredged. Speaking to the locals it's becoming obvious that this is a major contributing factor
