Your story

It has become 100% completely obvious that the recent weeks of flooding on the east coast of Australia is man made using geoengineering of cloud seeding and HAARP and possibly other technologies as well. There has been obvious evidence on the radar from the station in Moree, from possibly naval boats off the coast. I watched planes over our area on beautiful clear

blue sky days, go up and regularly dump toxins into the atmosphere to manipulate the weather. The only good thing about it is that this deliberate attempt to wash peoples lives away, to support the govts land grabbing exercise has managed to wake many more up to this inhumane behaviour. We live on top of a massive hill. In my 15 years and our neighbours 30yrs of living here we have never encountered damage from flooding. This time was different and it was no doubt influenced by the king tide that so happen to be on que with the "rain bomb". It is obvious this govt is not for its people and even though I don't expect the truth to come out of this inquiry and people held accountable, the truth always wins and its only a matter of time. Thank you for allowing me to show you that I am fully aware of this disgusting behaviour.
