Dear Sir/Madam

Re: Unnatural weather events, geoengineering and weather modification in Northern Rivers NSW

I would like to ask why the Corporate Australian Government/UN are purposefully flooding our region (not once but twice in the past 4 weeks)?

We can hear the larger planes flying overhead in the middle of the night, we see the smaller charter planes doing their repetitive circular patterns during the day, we see the chemtrails and unnatural cloud patterns, we see the EMF blasts on BOM from Moree, Grafton and somewhere north in QLD and we watch the video's showing us how they are holding these flood weather patterns over us. Not to mention an observed rain pattern for both flood events (being a light fall and a heavier fall, alternating in an evenly timed fashion, usually with no wind or natural storm behaviours) and timed perfectly to King tides.

When the Australian Armed Forces did eventually show up their first task was to promote themselves. Around the corner from where I live I watched them do a video of themselves unloading a trailer onto the kerb, meanwhile our community rallied together saving people in the hinterlands and helping to strip out homes as the whole town had been flooded. An absolute disgrace.

It would appear that the Corporate Australian Government/UN as the perpetrators are not even trying to hide their criminal acts, holding the men and women of Australia in contempt.

Would these criminal acts have anything to do with Agenda 21/30 – a blatant land grab, moving people off their land and into smart cities? Is it a coincidence that Byron Shire Council and Lismore Council have signed up to ICLEI?

I believe that a Royal Commission into the Corporate Australian Government/UN, Geoengineering and Weather Modification in NSW and Australia be a priority.

Kind Regards
