Submission details

I am making this submission as A resident in a flood-affected area

Submission type I am making a personal submission

Consent to make submission public I would like this submission to remain anonymous

Share your experience or tell your story

Your story 8.30 in the morning there was no water on my property ,by 11 am i was wading out to the next door neighbours with water up to my chest after the river broke its banks and swallowed my place ,i then spent days watching the water rise and then slowly fall ,it has been a massive cleanup and i threw a lot of stuff , i know this was a big rain event but i have strong feelings that the nsw

government caused a lot of this by not designing the highway near woodburn properly ,i hope there is a major enquiry into this and that they fix the highway so that this doesnt happen again ,previous to this event my place didnt flood eg 2017 lismore flood,ive signed up for the class action and hope that something comes out of it because i really believe it is partially nsw governments fault ,cause they didnt listen

Terms of Reference (optional)

The Inquiry welcomes submissions that address the particular matters identified in its [Terms of Reference](#)

1.1 Causes and contributing factors the highway created a dam and backed the water up and the rivers broke there banks

1.5 Recovery from floods slow and annoying
