Subject: Move lismore out of the flood plain
Date: Saturday, 14 May 2022 4:05:41 PM

Having had a really big flood just 5 years previous to this last huge and devastating flood (February), it seems more than obvious that lismores' floods are just getting bigger and more frequent, the 1 in 100 year flood hypothesis no longer applies. It is no longer a viable location for residence nor business. For the safety of all, Lismore needs to be relocated to a non flooding area.

Sincerely
