Hi Premier,

My name is _____ and I live at _____, South Lismore, and the recent big flood decimated us in South Lismore (sadly like many other places) but I can only speak for myself, _____ was particularly affected with houses coming off stumps and one actually floating into the next street !! Our street will never be the same, where house once stood will be vacant land with no other option but some house be demolished . I can't stay here long term, im to scared, im a 53year old woman, no kids or partner and very minimal extended family support, I just can't go through this again, I was in my kitchen in chest deep water, I can't lose everything I own again, I dont have a photograph left of my Mum(who passed 6years ago). Please please please consider a " land swap" for us here in South, my little cedar and teak home withstood SO well, it would be wonderful to move it to a small piece of land somewhere in/around Lismore, out of flood, where I dont have to live in constant fear :(:(. Please!! I dont want to leave Lismore, my community, my job, my support system, but without the Government help of some sort of land swap, I feel hopeless with no other option but to leave. Please consider fast action, id hope this happens in my life time

Kind regards
