Date: Sunday, 15 May 2022 11:45:45 AM

My property is in South Lismore. Apart from 1974 and 1989 we were relatively unscathed by flood. Since 2017 we've been hit 3 times. I'm dying, I have late stage metastatic cancer but I'm leaving my kids a poisoned chalice when they inherit my property

Please instigate a land swap with funding to move our beautiful homes to higher, flood free land. This is the only way to preserve the character and beauty of north and south Lismore and save the residents from the trauma of future catastrophic flood events
