Your story

The 2022 floods are simply the most horrific event I have ever been through. We were rescued in the middle of the night by our neighbour after ringing Ses and 000 after receiving evacuation orders. We received evacuation orders but it was too late the water was raging down our street dangerously. We lost our home, all of our belongings, our car and our

beloved horse. We have lived in our home for 30 years with water never entering under our house. Within hours the water was half way up to our second story. I feel as though we have had no support none during those first few weeks and still none now as I fight to get the back to home grant..

The whole thing is pathetic
