Your story

I am making this submission as a resident of Lismore who assisted numerous flood impacted residents.

I housed, fed, clothed and financially assisted a family of 4 plus pets for a number of months.

My family and many others in the same situation suffered tremendously from this as the disruption was both emotionally and financially

straining.

As a person whose home was not inundated but still was water damaged I was not eligible for any financial assistance and now am struggling paying my bills.

I will not go into detail of what we went through as many other families who were not impacted by water that helped others are in the same situation.

I just wanted to make clear that not only people whose houses were destroyed were impacted, there is the families that helped house, clean and financially fund that have also had losses and are trying to recover.
