---

I have a few more things to say ,re Floods in Gunnedah Nov-Dec. 2021.  
Keepit Dam should be keep to a level of 75%in a Wet Season such as we are having at the moment.  
And not to let out flows when our rivers are flooding..  
Flood Victims of the floods ,should be included talks re flood event.at Gunnedah.  
Local knowledge of Flood events ,should be taken in.  
Local Radio should be more informative ,on what is happening in Floods.  
After Flood help is non exsistent.

Thank you and Please send me info on Inquiry
