Your story

Live in South Lismore government response in the first 14 days after the floods in my experience was non existent both federal, state and local only real help I got was from random people on Facebook and from my work place () on the night sunday we left early around 930pm just after ses person came to the door saying a warning has been put out and just

wondering what we where doing told them we plan to leave just in case as we have a 10 month old son knowing we would at very lest be cut off for a day or two and being low on baby supplys we would be going then the ses person told us we should leave now as roads are flooding quickly

Terms of Reference (optional)
