Your story The floods caused chaos in Pitt Town. Local roads are closed when the river floods and our only route out - the so called emergency evacuation route - it's used by residents to get to and from work. This is our emergency route and should be closed for all except emergency vehicles. If residents choose to leave they should not be allowed back in. The road through the

Scheyville National Park was opened and allowed traffic both ways. The road as a result was chewed up and became unsafe. As the only access point this was poor road usage. I would like to see Pitt town residents frayed better and for us to have a true evac route.
