Submission type	I am making a personal submission
Organisation making the submission (if applicable)	Self
Your position in the organisation (if applicable)	Proprietor
Consent to make submission public	I give my consent for this submission to be made public

Share your experience or tell your story

Your story

I live on a farm in Harwood and was affected by unprecedented flood height, loss of crops, machinery and vehicle damage. The flood level predictions were hopelessly inadequate, inaccurate and the timing way too slow. The systemic removal of local input is a part of this.

Terms of Reference (optional)

The Inquiry welcomes submissions that address the particular matters identified in its [Terms of Reference](#)

1.1 Causes and contributing factors

It seems that the construction of the new Pacific Motorway and the lack of adequate drainage systems must be partially the cause of unprecedented flooding
