Submission details

I am making this submission as A resident in a flood-affected area

Submission type I am making a personal submission

Consent to make submission public I give my consent for this submission to be made public

Share your experience or tell your story

Your story i own a tenanted property at stuart st mullumbimby and live next door at stuart st ..the property at stuart street was inundated with flood water .the water level came up to the floor boards at number ..the trauma of watching the flood rise will be unforgettable ..the direction by SES to evacuate was meaningless with no details as to who should evacuate ...did

they really expect everyone to leave their house just like that ..

Terms of Reference (optional)

The Inquiry welcomes submissions that address the particular matters identified in its [Terms of Reference](#)

1.5 Recovery from floods the only long term solution for the town of mullumbimby is to raise the houses ..this can be done as most of the house are timber on stumps ..however the cost is prohibitive and the present voluntary house raising scheme does not address this on a large enough scale ..everyhouse that was flooded or nearly flooded needs to be lifted ..house lifting companies need to be established , and supported and brought to the area (there is only one in the area at present)and council and the NSW Govt needs to make the process easy and accessible and affordable for everyone effected
