Your story Flood waters came onto my property lawn and blocked the driveway.
I've been living in Mullumbimby all my life. As a kid growing up at Kings Creek Mullumbimby the Brunswick River was always DREDGED. Also all our creeks need a big clean out. Mullumbimby Road near Singh's veggie store and Uncle Tom's Pies the drains on either side of Mullumbimby rd

were always clean and clear back in the 70's. As time has gone on in the many years all our rivers have silted up and creeks full of rubbish so therefore our waters coming down from the western hills with continual rain and king tides the rivers are so full of sand that the water rises and comes all over the land.

The bulk of the drains around Mullumbimby are blocked. My father who has lived in Mullumbimby all his life and is now 90 has been saying for many years that the rivers need dredging. As a bus driver I drive around New Brighton on the 645 route the Brunswick River has become so high with sand. Many years ago the river was deep therefore a dredging system must be put in place. A dredging system would limit flooding.

Terms of Reference (optional)

The Inquiry welcomes submissions that address the particular matters identified in its [Terms of Reference](#)
