Terms of Reference (optional)

The Inquiry welcomes submissions that address the particular matters identified in its [Terms of Reference](#)

1.2 Preparation and planning i live in flood zone
when i look at river heights on

http://www.bom.gov.au/cgi-bin/wrap_fwo.pl?IDN60140.html#Tweed_River website...
only about 20% of the river height plots show major ,minor and moderate flood level lines which make it very difficult to know when to evacuate as you have no reference point to work with ...all river height plots should have these indicators otherwise they are useless..
