Submission details

I am making this submission as	A resident in a flood-affected area
Submission type	I am making a personal submission
Your position in the organisation (if applicable)	One of the residents who is badly been hit by the floods in March
Consent to make submission public	I give my consent for this submission to be made public

Share your experience or tell your story

Your story	I've only had my house for 2 years since buying this & was told the last bad flood Broadwater has had was in 1974 & the water only got to the second step of the back door & didn't get into the
-------------------	--

house. Due to the recently new bypass built the flood waters had nowhere to flow past to & the water banked up & rose up high & stayed there for over 6 days leaving my house to be under water. On the bypass submission there was supposed to be flood drains put in at Broadwater & Woodburn but why wasn't it put in instead of the dam wall they created

Terms of Reference (optional)

The Inquiry welcomes submissions that address the particular matters identified in its [Terms of Reference](#)

1.1 Causes and contributing factors

The new bypass is the cause of the flood waters rising & had no outlets to let the water flow away naturally like it did during the 1954 floods & the 1974 floods.
