Share your experience or tell your story

Your story we are running a small online business. our house has not been impacted by floods however internet shut down twice 10 days for the past months had a serious impact on our online businesses. We had to rely on a backup 4G mobile internet that dropped out every 5 min due to the amount of people trying to use mobile instead of home internet. Internet shut down

meant many hours of lost workable hours for many businesses around the shire and a backup plan should be put in place by telstra and nbn to avoid such outage in the future.
