Terms of Reference (optional)

The Inquiry welcomes submissions that address the particular matters identified in its [Terms of Reference](#)

1.1 Causes and contributing factors We have a drainage problem, which causes flooding in our street, when there is a down pour. We have a creek over the back which all the

water flows go to from surrounding streets, however it is full of brushes, trees & mangroves which can't be removed until the fishers are involved.

The Pipes from the creeks that run to the river the cause way gates haven't been maintained for a long time, either broken are 1/2 open and are not regulated when needed.

The drains really need cleaning out.
