Share your experience or tell your story

Your story In both Feb and March floods the BOM and SES kept us well informed and updated, they were extremely accurate and easy to follow and very present online on both their websites and social media. Other weather presentations in local news on TV were also accurate in forecasting both floods. We were given forecasts of heavy rain and possible flooding 1 week ahead of both

floods by all weather news resources available to us. We packed our business early on both occasions, and were told to evacuate with plenty of time on both occasions. There was constant updates and sufficient clear advice to follow throughout the weather events . I wish to thank them all.
