neighbours house as the water entered there
place as well

Terms of Reference (optional)

The Inquiry welcomes submissions that address the particular matters identified in its [Terms of Reference](#)

1.1 Causes and contributing factors

The main factor at wardell was the high way seem to dam the water so the only place it could go was into town and east wardell this has never happed before

And the warning for wardell was not good enough all the concern seemed to be for up river
Because wardell normally doesn't flood
